Supreme Court Ruling Turns Down Sherburne Board on Rent Profiteering

Rent profiteers get a new lease of life today when Judge Carroll in the Supreme Court ruled that the State Commission on the Necessaries of Life had no legal right to make landlords explain why they charged high rents.

When the decision was made known to General John H. Sherburne of the commission, he announced that he would appeal to Governor Chubb for immediate legislation to put rent profiteering within the power of the commission.

The decision was handed down today by Justice Carroll in dismissing a petition for a writ of habeas corpus to compel Michael Sees of Lynn to give information as to the results of two apartment houses owned by him in Lynn.

Probe on Split Contracts

A sweeping investigation by the Finance Commission of all city departments is under way, it became known today, to determine what departments are violating the city charter by awarding split contracts.

Coming so swiftly upon the heels of the Finance Commission's exposure of the oil scandal, the subsequent discharge of the city purchasing agent, Thomas J. Dawson, by Mayor Peters, and the exclusive revelations in the Boston American of the attempted bribery of Dawson through a go-between, the widespread nature of the investigation has shaken City Hall.

The commission showed its hand when it called for the facts and figures relating to the alleged monopoly in plumbing repair jobs in city buildings enjoyed by Edward J. McGrath, a plumber of No. 1311 Dorchester avenue, Dorchester.

STOCKHOLDERS' FUND IS RAISED FOR STREET RAILWAYS

LEGISLATION AND INVESTIGATION

Members of the legislative committee on street railways today requested an investigation of the alleged raising of a "flush" fund by bankers and street railway stockholders to influence street railway legislation on Beacon Hill.

The members of the committee on street railways, headed by Speaker Joseph D. Warner of the House of Representatives, and asked that an immediate investigation be undertaken.

A letter bearing the names of the presidents of two Boston banks and the president of a Worcester insurance company, and alleged to have been sent to the stockholders of street railways with the request that they contribute twenty-five cents for each share of stock they hold to the fund that is being raised, will be offered to Speaker Warner as evidence to justify the request for an investigation.

The letter says that the campaign to secure legislation favorable to the street railways will be in charge of the former Senator James E. MacPherson of Framingham, a former chairman of the street railways committee of the Legislature, and who was one of the officers of the organization which expended \$25,000 last year in an attempt to defeat the initiative and referendum.

It adds that the funds be sent immediately to "Julian W. Phillips, treasurer, No. 22 Tremont Building, Boston, Mass." Mr. MacPherson, according to the telephone directory, is located at Room No. 317, Tremont Building.

One of the alleged letter was presented by one of the members of the street railways committee, while in an executive session deciding its course upon the important pending street railway legislation.

One of the members of the committee asserted that, if not made prospective fund was contributed, its promoters would have to raise in excess of \$50,000 at their disposal.

"Because of the cloud which this could possibly throw over the committee, I am sending Speaker Warner," said one of the committee members.

Speaker Warner was detained at Taunton by the illness of a relative, and is expected to return today.

VOTE TO KILL JENNEY BILL.

The committee voted to kill the bill for regulation of jitneys, which, one member said, "these interests were very anxious to have passed."

Action was taken on some of the other bills, but a final decision was withheld awaiting the recently held discussion the situation with the Speaker.

One member of the committee said that the Speaker would be urged to give his consent to an investigation.

Members of the Legislature said they had knowledge that letters had been sent to at least three classes of stockholders. They included the private and the old Bay State Street Railway holders in those classes.

HELPFUL LEGISLATION OBTAINED.

The letter described the activities of the Association of Street Railway Companies in 1917. Through the efforts of this association, which has a large literature, obtained editorial and editorial assistance, and secured the passage of the initiative and referendum legislation.

In another session it said: "The committee voted to kill the bill for regulation of jitneys, which, one member said, 'these interests were very anxious to have passed.'"

Among the benefits which the letter says can be obtained from the street railways of the State are the saving of \$750,000 in franchise and communication taxes, "the elimination of the establishment of transportation lines to be operated under public control with a guarantee to security holders as in the case of the Elgin, and the possibility of these measures."

Bill providing for these measures of "relief" were recommended by the Special Committee on Street Railways.

Plans of Some Members of the Senate Met With Disapproval

By International News Service.

Washington, Dec. 4.—President Wilson will remain at the White House during the holidays. It was announced at the White House today.

The President has decided that he will be more comfortable at the White House during his period of convalescence than he would be elsewhere.

Desire of some members of the Senate to inquire into the condition of the President has met with disapproval from the leaders. Various plans have been suggested for ascertaining the President's condition.

One was to have the Naval Affairs Committee call upon Dr. Grayson, the President's physician and a naval officer, for the information. Another was to call upon the President's committee to wait upon the President.

The Naval Affairs Committee is not willing to act upon the first suggestion, and leaders voiced the second proposition, which is to be made known by its spokesmen in the distribution.

Silk Stocking Girls Healthiest, Says Dr. Copeland

New York, Dec. 4.—A young woman who wears silk stockings has the O. K. of Dr. Copeland, superintendent of health, who says he believes they are even less likely to influence than their more profane sisters. He presents statistics in support of this belief.

"If the dress were to wear silk stockings and high heels shoes for anything else that appeals to them, let them, and forbid them to wear anything else," said Dr. Copeland.

Dr. Copeland, a brother of the defendant, testified today that Charles was employed in his electrical shop at the time Foley was murdered. This testimony was given by the defense to show that he was working at the time of the murder.

He testified that Charles was a timekeeper for him, and carried a key to the safe. He received his weekly salary Saturday night, February 15, at the bank of the robbery and killing of Foley.

Police Charge Narcotics Recovered Stolen from City Pharmacy by Drug Band

Lawrence, Dec. 4.—The search of a lodging house and the finding of a large quantity of "dope," mostly morphine pills and tablets, the arrest and arraignment of Dennis Carroll, charged with having morphine in his possession, and the statements of a person under police surveillance that the proprietress of the house was "peddling dope," revived the mystery of the theft of thousands of morphine pills, cocaine and heroin by a band of thieves operating in drug dens here.

The police, led to believe that a woman was the dealer who supplied the drug, arrested her and searched her room. She was found to have a large quantity of morphine pills, cocaine and heroin in her room.

FURTHER RESTRICTIONS IN USE OF COAL ARE PROBABLE

LIGHTLESS NIGHTS TO BE FEAR

Places of Amusement Soon to Feel Shortage Unless Production Increases

(Continued From First Page.)

Kentucky and Pennsylvania, which were actually open for a conference at Washington, D. C., on November 1, are again closed. The closure in production is such as to leave grave fears on the part of the American Coal Administration and the committee of experts in Washington.

STRIKES OUT SUPPLIES

The American Federation of Labor is reported as having opened up communication in view of the mining communities in which some strike are pending and the supplies for living purposes with the understanding that they will be paid for by the coal producers.

These matters have been placed before the department of Justice. Whether action will be taken by the department of Justice under the terms of the Antitrust legislation will be taken by the department of Justice.

The group of 100 labor operators from different sections of the country met in conference in Washington today for the purpose of discussing the situation as it relates to the coal mines. It was decided that the situation of the coal industry was such that it was necessary to take further action.

Unofficially, industries already have been limited in their supply of coal. It is believed that within a week the fuel administrator will establish minimum limits and will restrict the use of coal by places of amusement.

Factories Calling for Fuel As Cut in Train Service Here Is Planned

The announcement of a new restriction on the use of coal by factories is being made in the light of the fact that the fuel administrator is expected to announce a new restriction on the use of coal by factories.

No new orders of instructions from Washington have been received by the fuel administrator. The plans for a new restriction on the use of coal by factories are being made in the light of the fact that the fuel administrator is expected to announce a new restriction on the use of coal by factories.

THINKS MONROE DOCTRINE WILL HELP EUROPE

League of Nations Losing Support of Allies, Says Alexandre Ribot

By International News Service.
Paris, Dec. 4.—It is hard to understand why the peace treaty caused such commotion in the United States, because nobody in Europe expected America to enter a fresh war in defense of Western Europe without the sanction of Congress, as the constitution provides, declared Alexandre Ribot, former French minister of finance, in an interview today.

"We were perfectly willing to reconstruct America, interpretation of the Monroe Doctrine. She has an opportunity in Mexico to act upon that right now. We shall watch with interest to see how she acquiesces herself."

"America has her own problems and her own solution in the Monroe Doctrine. Europe will probably adopt a similar system."

"A League of Nations would be of little real value as a preventive of war, without a permanent agreement among the nations which fought side by side for the rights of peoples."

"That is the only real guarantee for the peace of the world. The League of Nations idea has lost much ground recently in Europe. But that is not surprising, in view of the fact that President Wilson, whose name the League of Nations was not, defeat in his own Congress."

"Western Europe is facing grave problems. The support of the United States would be of tremendous value, but Ribot will know how to meet the situation in her own way. The serious side of the present situation is the refusal of the United States to ratify the Peace Treaty, thus encouraging Germany, who hopes to benefit herself by dissension among the allies."

ORDER STOMACH OF OTTERSON ANALYZED

Search Will Be Made for Poison in Organs of Murder Victim

Concord, N. H., Dec. 4.—A chemical analysis of the stomach of Maurice Otterson, a possible trace of poison has been ordered by the State.

Counsel for Mrs. Marie Luyens Otterson, sister-in-law of the victim, who is held without bail charged with the murder, has received a report from Medical Expert Francis H. McCarthy of Boston, employed by the defense, who has spent considerable time in examining parts of Otterson's body which were taken from Concord last Sunday by Dr. George B. McGrath, the State's medical expert.

As a result of a request made by Mrs. Otterson's counsel, Judge Oliver W. Branch of the Superior Court in Concord, ordered Dr. McGrath to allow McCarthy to examine the portion of the body at the former's laboratory.

8,697 KILLED ON RAILROADS IN A YEAR

Casualties in 1918 Included
64,144 Injured in Train
Accidents

By International News Service.
Washington, Dec. 4.—The casualties on steam railroads in connection with the operation of trains during the calendar year 1918 amounted to 8,697 deaths and 64,144 injuries, according to the annual report of the Interstate Commerce Commission made public today. In addition, there were 33 persons killed and 110,313 injured in non-railroad accidents.

Injured in non-railroad accidents during the year there were 161 employees killed and 1,232 injured in coupling and uncoupling cars.

Casualties due to employees coming into contact with overhead and electric structures, falling from and striking on and off cars, resulted in 638 deaths and 14,532 injured. As compared with the previous year, there was a decrease of two in the number killed and 14 in the number injured in the former class of accidents, and an increase of thirty-five in the number killed and a decrease of 1,851 in the number injured in the latter class of accidents.

\$3,500,000 HOTEL TO BE BUILT IN PROVIDENCE

Providence, R. I., Dec. 4.—Plans are nearing completion for erection of a seven-story hotel, to cost \$3,500,000 and having more than 400 rooms.

The hotel, to be known as the Providence-Biltmore Hotel, will be under the operation of John M. Bowman of New York hotel fame, and Lewis E. Walling, also well known in New York hotel circles.

MOVIE MEN KILLED

IN AFRICAN JUNGLE
Los Angeles, Dec. 4.—In the train wrecked in a recent collision in the African jungle of the Belgian Congo, two members of the Smithsonian Institution—General Film Company expedition were killed. Two others perished fatally injured, several others seriously hurt. It was learned today.

News of the far distant disaster reached the outside world through the Universal Film Company offices.

OPPOSES BILL FOR U. S. SCHOOL DEPARTMENT

Washington, Dec. 4.—Opposition to the Smith-Towner bill creating Federal departments of education was voiced at a meeting of the International world movement training conference today in the city.

It was said that a substitute bill was being prepared providing for a Federal board of education rather than a department, and that it would take the matter of education entirely out of politics.

WHO'S WHO ON BOSTON'S NEW POLICE FORCE

JOSEPH L. MURPHY.

Everyone knows that Boston has a new police force.

How many know that there are several hundreds of these men already on duty in the city?

How many know anything about these new guardians of the law, what they look like, where they come from, and what they did before joining the police department?

In order that the public may obtain this information, the American is publishing a series of illustrated stories introducing the new policemen.

Joseph L. Murphy, who is a regular day man of the La Grange street station, patrols the route comprising Tremont street, Shawmut avenue, Cornhill street and Broadway. He is an ex-convict man, having been chief master-at-arms in the United States Navy for fourteen years. He is married, and lives at No. 25 Homer avenue, Dorchester.

TRAFFIC OFFICER IS SOUGHT FOR BRIGHTON

Brighton residents are signing a petition to have a traffic policeman at the junction of Commonwealth avenue and Rutherford road, where there have been numerous accidents. Last Saturday, a man was killed there. The traffic police at Rutherford road, and there is no street on the opposite side of Commonwealth avenue. There is a long hill at the point, and autos are either getting up speed to make the hill or high, or are coming down the hill at a fast rate.

The petitioners declare they would need the traffic policeman only in the morning when men are going to school and the children to school and in the evening.

EAST BOSTON'S SHIP STRIKE AT DEADLOCK

The strike among ship carpenters employed at East Boston shipyard is apparently as far from settlement as when it began a week ago. The men hold firmly for their demand of ten cents an hour additional, making their wage 30 cents an hour, and the employers are equally determined to grant no increase at this time.

Contracts were accepted at the old rate, and the margin of profit is not sufficient to allow the requested advance, according to the managers of the yards affected.

MANCHESTER, N. H., MILL WORKERS MAY GET BONUS

Manchester, N. H., Dec. 4.—Employees of the Amesbury Manufacturing Company, numbering 1,000 will be granted a bonus at Christmas in addition to the 12 1/2 per cent wage increase already announced. It is believed here. Confirmation of the report could not be obtained, although agent Herman F. Shaw, in charge of the mills here, said that notices would be posted in the mills today announcing the company's plans relative to increase.

THANK, SENATE FOR BLOCKING TREATY

Allied Societies of Cambridge Brand Covenant as an Instrument of Foreign Intrigue

The Allied Societies of Cambridge, representing more than 10,000 citizens, have sent out resolutions, unanimously adopted by them, which congratulate the United States Senate for the defeat of the League of Nations covenant.

The resolutions brand the covenant as "un-American," as "the instrument of foreign intrigue, notably the domination of Britain," and as "an obnoxious compact."

The resolutions read:

Whereas, the "unpopular" chosen representatives, the members of the United States Senate, have rejected the un-American compact known as the League of Nations, and

Whereas, in its rejection our beloved country is saved from the humiliation of being dominated over by foreign intrigues and European intrigues, notably the domination of Britain; be it therefore

Resolved—That we, the chosen representatives of the Allied Societies of Cambridge, in public assembly, representing as we do ten thousand American citizens, go on record as congratulating the United States Senate who saved the day for the American nation in defeating the obnoxious and un-American instrument known as the League of Nations.

We feel this to be a fitting time in our recent activities within the scope of our great activity, Thanksgiving Day, and we gratefully thank the great God for the fact that all nations are allowed to exist. We thank the fact that the most legitimate body in the world should have one on record in favor of American independence, justice and righteousness.

To the senior and junior Senators from Massachusetts, the Honorable Charles Cabot Lodge and the Honorable David F. WALSH, we wish to express our most sincere thanks.

We are proud to have both served long as the people's champions in the cause of American safety and freedom; and be it further

Resolved, that copies of these resolutions be forwarded to our distinguished Senators from Massachusetts and that copies be supplied to the press of the city.

BARTLETT GETS NEW FACTS IN DEAN CASE

N. H. Governor Confers with
Federal Agents on Activities
of Germans

Portsmouth, N. H., Dec. 4.—Gov. Arthur H. Bartlett, in his efforts to untangle the mystery surrounding the murder of Dr. William E. Dean of East Jaffrey, N. H., more than a year ago, and in which case no investigation has been made, although a thorough investigation has been made of the facts by both the Federal and State authorities, is learning some important facts in relation to the mystery.

Government authorities are still at work on the case and are being followed up which lead from Portsmouth to Jaffrey and in New York City. A woman is more or less concerned in the activities of the suspected parties both on the day before and the day after the murder. The Governor says that whatever facts he learns will be turned over to the authorities. In the hope that an arrest will soon follow.

The Governor, who talked with two Government officials, said: "At my request, the Bureau of Investigation or getting an understanding of the Dean murder case situation. I had a long conference with the representatives of the United States Department of Justice. They had to do with the investigations of German activities in Jaffrey in the summer of 1918. They are George E. Kellner, division superintendent of the Bureau of Investigation, Boston; Norman J. Clifford and M. H. Vailenburgh, of the same office. I sought to say, in fairness to them, that they have acted in entire good faith in the investigation.

"They have discovered important facts, and had a theory of the case, perhaps different than the State authorities had at first. They were investigating the subject of diplomacy in the knowledge of the fact that one of whom was suspected of having guilty knowledge of the murder. What they learned in their line could be valuable information, therefore, on the question of motive, and the theory of it being a German murder was accepted."

"There was no serious clash of any vital nature between the Federal and State investigators but they had different theories of the crime for a while. I am convinced that no diagram was used on the State authorities anywhere. It was a misunderstanding. What I am trying to do is to pick up all the threads from all the sources and put them together to see if we can get more light on the German murder theory. That is the direction of the truth, in my judgment."

"The main difference between authorities must have resulted from a concentrated judgment on all possible sources. I am convinced that no diagram was used on the State authorities anywhere. It was a misunderstanding. What I am trying to do is to pick up all the threads from all the sources and put them together to see if we can get more light on the German murder theory. That is the direction of the truth, in my judgment."

SPOTLIGHT ON TRAFFIC
OFFICER WARNS AUTOIST
Arlington Centre is becoming nearly as busy as many city streets with automobile traffic during the early evening hours, and in order to properly handle this traffic, a traffic officer has been stationed at the junction of Massachusetts avenue and Pleasant street.

Patrolman Theodore R. Belzer is the officer, and until the recent installation of spotlight from a window in the old Town Hall, shining on the officer, he had many narrow escapes from being run down by machines.

SUES FOR \$200,000 IN MINING STOCK DEAL
Henry F. Wells of Boston has brought suit for \$200,000 in the Suffolk Superior Court against Allen Arnold, also of Boston, alleging breach of contract. He says Arnold agreed to put \$10,000 in the treasury of the Florida Silver Mining Company, for which he was to receive 100,000 shares of stock with an option on 100,000 more. As a result Wells says he delivered to Arnold \$25,000 shares. He now alleges that Arnold did not put in the money he agreed to, but has sold the stock at from \$1 to \$2 per share.

SPUSSEYFOOT JOHNSON REFUSES GIFT FOR LOSS OF EYE
By International News Service.
London, Dec. 4.—W. R. "Spusseyfoot" Johnson, the American day worker, who lost his right eye as the result of being mobbed by medical students while making a prohibition speech in this city, has improved so rapidly that it was stated today he could leave the hospital.

In a letter to the Evening News Mr. Johnson refused to accept the testimonial fund of \$1,000 that had been raised for him by popular subscription.

"This is an affair that cannot be measured by pounds and dollars," wrote the American day leader. "Nevertheless, I appreciate the bottomless sympathy of the British."

Mr. Johnson turned the money over to St. Dunstan's Hospital for the blind.

LUCKLESS HUNTER FINDS DEER IN OWN PASTURE
Warren, Dec. 4.—Hunting deer in Warren is different from most places. George Cronin, after fruitlessly roaming all day in the woods in search of deer, returned home to find a handsome animal feeding in the pasture with his cove. He brought the prize down with the first shot.

G. O. P. CAMPAIGN FOR PRESIDENCY NEXT WEEK

Opening Gun Will Be Fired
When Contest for Convention
Is Started

By International News Service.
Washington, Dec. 4.—The opening principle of the Republican Presidential campaign will be fired here one week from today.

The Republican National Committee will decide on that date the place of the next national convention and the preliminary plans for the campaign will be laid.

Chairman Will H. Hays has received word that practically every member of the committee will be present.

Most important will be reports from the States, and politicians here are particularly anxious to learn what the effects have been of the action taken in the Senate on the Peace Treaty.

Many women voters will not be eligible in the meeting. Plans have been made for their representatives, and they will be granted a voice in all the voting. Mrs. John G. South of Washington, D. C., is the women's division of the Republican National Committee, and Mrs. Mary Thayer Hay, chairman of the executive committee of the same division, have promised that there will be a general launching of women at the meeting.

Two Republican Governors, Governor Speed of Pennsylvania and Governor Cary of Wyoming, will make the opening address.

Many of the prospective candidates are expected to "come out of the woods" next week, and there are indications that there will be a general launching of women at the meeting.

The "suburban for President" boom is now in full bloom, with a committee working diligently for the nomination of Senator Howard Sutherland of West Virginia. The members of the suburban boom declared that they have completed a three-month survey and that he is "the logical man."

The case of Senator Newberry of Michigan, indicted for election irregularities, will be taken up. The National committee will take steps to protect the interests of the party.

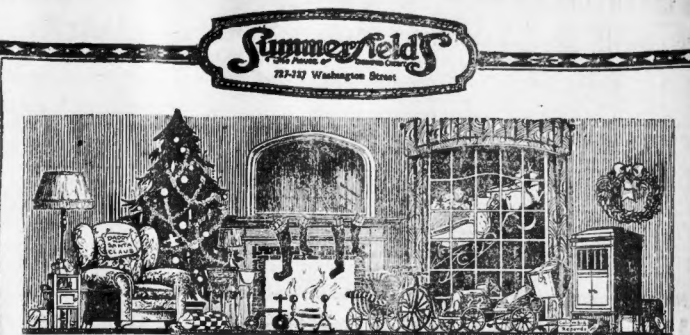

BIG RECORDS BY RHODE ISLAND COWS
Newport, R. I., Dec. 4.—The Newport County Cow Testing Association gives records of cows owned by members, which have produced more than forty pounds of butter fat, or more than 1,500 pounds of milk, during November. The records follow:

There's not a thread comes near a woman this season that doesn't glow with color

Fashion is painting women—from the naivest debutante to the most elegant matron—from sheer underslip to the last floating bit of tulle—in the maddest riot of colors we have seen for twenty decades

NEVER have we in America seen such a revel of color as this season is bringing in. Women's clothes—blouses, frocks, hats, wraps, underwear—fairly sing with gaiety.

Lovely blues from France, gay Balkan reds, gorgeous Oriental turquoises and greens—every nation in the world seems to have sent its loveliest color to deck the smart Americaine this year.

Only it's often months and months after the smartest magazines tell us of a new color, before we can get it in the shops. The weaving, the dyeing, the making up all take so long.

But now, a wonderful new way has been found for women to get the smartest of new colors at once. The sauciest blouse that's teasing to be lavender, the clingiest envelope that's begging to be pink, you can wash them just the color you want.

Just wash your blouse turquoise or green

YES, you wash it, that's all. For making your blouse a shining turquoise, or a cool green, or any lovely color you choose—at the same time it launders as perfectly as Lux, is just what Twink is made for.

Twink is in beautiful, brilliant flakes—in every smart color you could want to wear. As soon as you see them tumbling out of the gay Twink package, you know they're going to do something charming for you.

Really smart colors—that turn out right

The most wonderful thing about it is that Twink colors are really smart colors, chosen with the help of the authorities in this country on the colors of women's clothes. To be added to from season to season as new colors attain real prominence.

There are the four blues that every fashionable woman will choose from for her fall and winter wardrobe. There are seven exquisite

shades from Flesh to Dark Red. And Grays and Greens, Lavender and Purple, Bisque and Brown and Yellow—each the very shade of that color that this season favors most.

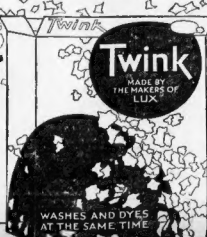

And these Twink colors turn out right. You're as certain of getting a clear, true color, with never a dingy cast—as you are sure that Lux will launder every filmy bit of lace or chiffon so it is exquisitely new. And so fast will the color be that you can wash your waist several times in Lux before sending it to another Twink bath.

Get today two or three packages of Twink in the colors you're most fond of. Give yourself a new blouse, a new camisole or envelope—give that white collar and cuff set a gay new bit of life. Or the costumes the sun has treated so badly—give them back their old lovely color.

You just follow the surprisingly easy directions that come with the package—and Twink won't injure any fabric water alone won't harm. All the department stores, 5 & 10 cent stores and your druggist, have Twink. Lever Bros Co., Cambridge, Mass. (Makers of Lux.)

AS WONDERFUL FOR GIVING COLORS
AS LUX IS FOR PRESERVING THEM
MADE BY THE MAKERS OF LUX

Every bright popular shade of the moment

Flesh	Bright Red	Navy Blue	Dark Green
Pink	Dark Red	Yellow	Light Gray
Coral	Baby Blue	Lavender	Taupe
Peach	Copenhagen	Purple	Bisque
Old Rose	Turquoise	Light Green	Dark Brown

How to use Twink

For Flesh, Pink, Old Rose, Yellow and Lavender:

You make a gay lather as hot as your hands will bear and wash the garment just as with Lux, only rinsing in cold water.

For the other colors:

You use salt and boiling water. You work the garments about in the boiling hot Twink suds for five minutes, then add cold water until suds are cooled just enough for your hands to bear. Then squeeze the suds through, as with Lux, and rinse in cold water, till the water runs clear.

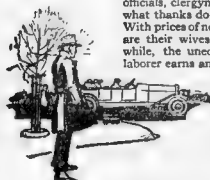

The amounts to use are given with the directions that come in the Twink package.

If you could not tell a man everything in your past life—would you marry him?

Should one youthful mistake overshadow a woman's whole life?

Will the salaried man sit by and see the uneducated day-laborer earn twice as much as he?

WILL the architect be forced to work as a carpenter? Must the journalist go back to the print shop? Our bank clerks, salesmen, buyers, actors, public officials, clergymen and college professors—what thanks do they get for their services? With prices of necessities "skied" high, how are their wives to manage? And, meanwhile, the uneducated, foreign-born day-laborer earns and spends as much in a day as the salaried man does in a week or so!

Samuel Hopkins Adams thrashes out thoroughly the problems that confront the man and woman of formerly comfortable means today.

How to build your own house without going broke

BUILDING a home is usually the most heart-breaking thing in the world. You start out with a fixed budget of expenditure. You think everything is provided for, and then you find you need all kinds of things you didn't dream of. Do you know that by a new way of *planning your space*, you can save all this trouble and expense? In Pictorial Review for November, N. M. Woods begins a new series on *Economy in House Designing*. His idea is entirely new and has already met with extraordinary response. Experts declare that no magazine has ever published anything so helpful and practical.

WAS one youthful mistake to cast its shadow over Harriet Field's whole life? Beautiful, adored, her story utterly unsuspected, was she to risk telling the man who loved her now, of that terrible secret of her youth?

Read this extraordinary story of a supreme struggle in a young and ambitious woman's heart. *Should* she have told? And given up wealth, position, luxury, a good man's love—all that she longed for?

Or should she have married the proud, honest man, in the fullness of his success, without giving him a hint of the risk he ran?

"If you dance, you must pay the piper," the old saying has it. Did Harriet Field have to pay?

Skillfully, with sustained interest, Kathleen Norris develops this absorbing situation. It is one which must stir every woman's heart. As you turn page after page eagerly, will you be moved with profound pity for the beautiful young woman overshadowed by the dark reality that sprang out of her youth and inexperience? Or will you denounce her?—Don't miss a line of

HARRIET AND THE PIPER by Kathleen Norris

(Author of "The Heart of Rachael"; "Josselyn's Wife," etc., etc.)

The first stirring instalment—a big, generous one—appears in Pictorial Review for November. The remainder follows swiftly, powerfully, with intense feeling in three succeeding issues. It is the most absorbing love-story Pictorial Review has ever published.

What Mr. Newcomer has to say about Boston's position in the automobile world.

Dear Randall:

We're both keen automobilists, and we've both been through the delightful experience of having something give out on our cars miles outside the nearest city and limping slowly and painfully into town on two or three cylinders, only to learn that there's no service station representing our make of car in the city and we must wait several days to get fixed up.

No danger of that here in Boston! Whether you drive a Reo or a Packard, a Hudson or a Fiat, a Franklin or a Chalmers, Maxwell, Essex, Columbia, Nash, or what not, you'll find here in the "Hub" service to delight the heart of any motorist. All over the city are scattered service stations, repair shops, and garages galore, with plenty of intelligent, expert mach'nists who know from A to Z everything there is to know about cars of every make. No matter what your trouble is, it'll be diagnosed and corrected with admirable speed and efficiency.

It is this splendid service, coupled with the magnificent roads and innumerable beauties of country and seashore which surround Boston on all sides, that makes this city a paradise for automobilists. It is estimated that 16,420 passenger cars are owned here in Boston, and 6,295 commercial cars. Last year there were 193,497 automobiles registered in Massachusetts—one car to every 19.8 persons in the State—and of this total 33,011 were commercial vehicles. Massachusetts has 235,140 licensed operators, and in 1918 the State's revenue from automobile fees amounted to the tidy sum of \$2,181,833!

Boston boasts dealers and agencies for practically every make of car, tire and accessories shops abound, and I tell you, Randall, no motorist can help feeling mighty at home when he strikes this good old city.

Your partner,

J. A. Newcomer

SEES HER MANAGER HERE TO KICK MOVIE GIRL

Clara Kimball Young Expects to Find Successor in Boston

Clara Kimball Young, following her announcement in yesterday's American, that she wanted this newspaper to aid her in finding a talented successor, immediately demonstrated her seriousness of purpose by dispatching her personal representative here to the American in seeking the best material New England has to offer for a future screen honor.

Full details of Miss Young's plans were given by her representative to the American yesterday. She will be immediately to Los Angeles and given quarters at the Hollywood Hotel, near the Caramo studios. After arriving there she will be given a full week to acquaint herself with the studio and its personnel. She will then be given a full week to acquaint herself with the studio and its personnel.

After a time small parts in Clara Kimball Young's pictures and the appeal for her production will be given to the manager, and in addition, she will be given a full week to acquaint herself with the studio and its personnel.

Handsome WEEKLY STIPEND. Miss Young's weekly stipend is \$10,000. She will be given a full week to acquaint herself with the studio and its personnel.

DOYLE ROBBED OF DECISION BUT NOT THE BOXING

BANISH THE BOXING BANDITS

outing in boxing has been dealt another black eye. Last night's "decision" in the Kibby-Doye bout at the Fenway A. A. the second was pulled in this city with the single exception of the New York-House bout at the Avon some years ago.

On all sides today the Fenway officials in general, and Referee Jerry Moore in particular, are being passed to the Queen's tender.

The boxing fans are a patient, long suffering and a loyal lot—the best in the world—but how long are they going to stand for this kind of treatment?

The game is bigger and better than ever, just now, and the only way to keep it going is to drive the bandits out and keep them out.

The Lawrence fight leaders learned their lesson at the hands of the Boston American, and it would be well for those behind the sport here to be on the alert.

By JACK CONWAY.

After administering a decisive defeat to Young Kibby in a twelve round bout at the Fenway A. A. a few days in Mechanics Building, Paul Doyle was deprived of a victory by a slow decision by Referee Jerry Moore. Doyle was eight out of the twelve rounds. He had a healthy margin in each section which ended in his favor, while Kibby had only a slight edge on his rival in those chapters in which he finished in front.

The verdict of Referee Moore, named most of the 1200 fans who were on hand to witness the battle when the Lawrence rounds were not done Kibby was not a winner. Doyle was the victor, but the referee's decision was a surprise. Doyle was the victor, but the referee's decision was a surprise.

THE MODERN WAY.
No more the magnates play a host
For ring of the old boys hit;
They're busy now with legal speed,
In London, suit and case.
Time was when owners thought the team
Was theirs, and they were right.
But since they hopped from field to court
The playing part is lame.

BAN FACING CRISIS.

After ducking barrages of all sorts for many a long day, it begins to look as if Byron Bunker Johnson had finally been burned in by the bunch of legal abridgers that has been buried at his recent by some of his magnates.

EVEN HINT THIRD DEGREE.

First and foremost, the idea of a drive will be made to Johnson from the driver's seat, to which he has been decided for some years.

GAME PROSPEROUS, BUT—

Baseball last season had a wonderful popularity, even for some clubs that were not winners. Another glittering campaign stretches ahead, but it isn't inevitable by any means.

HARMONY NECESSARY.

The National League has never done as well as the rival circuit since its inception and it is not likely to do so in the future.

PLENTY OF ACTION

Plenty of action, combined with a variety of interesting and exciting events, is indicated in every one of the three matches at the stadium.

Close Hockey Season

The Arlington High School girls' hockey team, which has been playing a very successful season, will close their season with a game at the stadium.

PERPLEXING QUESTION IN THE HOME

To the man who is willing to become an American citizen and help maintain our institutions, let us give our welcome, but to the man who would disturb our freedom let us say, "Go back to the country from which you came, we will run our own country along the traditions of our fathers and the ways of peace." We who have families look fondly forward to their being reared in an atmosphere of prosperity, goodwill and peace. We are a great country. We have a great future. The world looks to us as a guide. We will stand for nothing less than one hundred per cent. Americanism in any man.

In our judgment Mr. Bauer is right.

Governor Bartlett himself was never involved in any suspicion by any one of official laxity. We also believe that the prosecuting officials will, when they consider the case in the light of all the evidence now being developed, take hold of it again vigorously.

A political cartoon by Henry Harkins. In the center, Uncle Sam, dressed in his traditional top hat, striped pants, and bow tie, is being punched in the face by a massive, muscular, and grumpy-looking man. The giant man is wearing a dark tank top with the words "HIGH PRICE INDUSTRIAL CRISIS" written on it. A speech bubble coming from the giant's mouth says "COME ON, KID!". In the background, a line of other men, also appearing distressed or defeated, are being pushed back. They are labeled with various economic crises: "WAR CRISIS", "BANKING CRISIS", "BUSINESS CRISIS", and "HARD TIMES CRISIS". The cartoon is signed "Henry Harkins" in the bottom left corner.

SHE LAID on the lounge,

however, the covenant is so amended as to give to no other nation more votes than the United States, to protect the sovereignty of the American people, to protect the right of self-determination

books. The majority of them are more deserving a martyr's crown.

What the truth really is, nobody knows. We are here to find out.
